

## WEDDING CATERING

At Taste To Taste we are committed to working with you in developing and creating your perfect wedding. Our objective is to exceed your expectations and those of your family and friends.

Taste To Taste offers food and beverage packages to suit every wedding occasion and budget: from an afternoon garden tea party to casual canapés and fingerfood receptions; from simple buffets and wedding banquets, to elegant, three course sit-down meals or a 6-course degustation dinner.

### **Food:**

All our menus are designed to suit outdoor and external venues or private homes. In our food you will taste exquisite and subtle blends of north Indian spice and fresh herbs; with the meats, cheeses and wines of Europe and the Mediterranean. Diversity in taste and flavour sets us apart from our competitors.

### **Beverage:**

Taste To Taste can arrange your beverage requirements from French Champagne to local premium wines. We can develop beverage packages to suit your preferences. Alternatively, we would be happy to have our staff serve your own beverages.

### **Our Staff:**

Our staff are well trained, professional and courteous, and our supervisor will ensure that all your requests are met on the night and will be your contact throughout the evening.

### **Quotations:**

We would be happy to arrange a time to meet you to discuss your wedding requirements. From this meeting, we will prepare a detailed written quotation for your consideration.
